ANTICOAGULATION  
Centers of Excellence

### Resource Spotlight: Atrial Fibrillation

The Anticoagulation Forum's flagship program, the Centers of Excellence, is a microsite that includes an expansive online resource library. This library is continually updated with new materials which reflect the changing landscape of anticoagulation therapies. In honor of AFib Awareness Month in September we would like to highlight our resources on stroke prevention in patients with Atrial Fibrillation.

### 14th National Conference Videos

Select videos from our 2017 National Conference are now available to [view under the ACE Videos tab](#) on our site.

If you were unable to attend the conference you can now watch select videos of AC Forum Board members discussing topics in the world of anticoagulation.

**Conference is filling fast!**  
**Anticoagulation Boot Camp**  
**Chicago, October 12-13, 2017**

AC Forum's 7th Regional Boot Camp is fast approaching, reserve your spot today! This compact 2-day meeting provides a comprehensive curriculum for Pharmacists, Nurses and Physicians covering the essential aspects of anticoagulation, disease state, and drug management and provides a minimum of **9.75 contact hours** of education credit. Engaging discussion around quality improvement, new agents and special situations will benefit all practitioners and daily "chalk talks" will allow for attendee participation to shape the topics.

A special hotel rate is available for conference attendees at the The Westin Michigan Avenue Chicago until **September 6 or until the room block is filled.**

**Anticoagulation Options for Stroke Prevention  
in Atrial Fibrillation**

The National Blood Clot Alliance's Atrial Fibrillation Learning Module provides the most current information and clinical considerations regarding anticoagulation options for healthcare providers regarding stroke prevention, particularly in AF patients. This learning program includes comprehensive information about three important topics to the treatment and prevention of Atrial Fibrillation including 1) AF, stroke risk and patient selection 2) Anti-thrombotic therapy options for patients with AF and 3) Promoting adherence to oral anticoagulation therapy.

THE NORMAN KNIGHT NURSING CENTER FOR CLINICAL & PROFESSIONAL DEVELOPMENT

## **Pharmacology of DOACs and Application to Patient Education and Interprofessional Clinical Management**

**Boston, September 18, 2017**

This half-day conference and associated pre-requisites provide 5.66 contact hours for Nursing and Pharmacy professionals. Participants will demonstrate knowledge gained and practical application of such in the education and care of patients on DOACs for atrial fibrillation and venous thromboembolism.

The fee is \$150 for non MGH/non Partner employees and \$100 for Partner employees. There is no fee for MGH employees.
