Anticoagulant Treatment of Cerebral Venous Thrombosis: Where Are We in 2022?

Monday | August 22, 2022 | 12:00pm ET
11:00am CT | 10:00am MT | 9:00am PT

Join Dr. Thalia Field, stroke neurologist, clinician-researcher, and expert in the management of cerebral venous thrombosis, along with AC Forum board members as they discuss current anticoagulant treatment of Cerebral Venous Thrombosis (CVT) and the long-term health effects in patients. The webinar will review the article “Direct Oral Anticoagulants Versus Warfarin in the Treatment of Cerebral Venous Thrombosis (ACTION-CVT): A Multicenter International Study”, which evaluated the effectiveness and safety of DOACs vs warfarin in patients with cerebral venous thrombosis.

Presenter & Guest Faculty:
Thalia Field, MD, FRCPC, MHSc
Associate Professor/
Heart and Stroke Sauder Family Professorship of Stroke Research
University of British Columbia
Webinar Co-Chair Panelists:

Deborah Siegal, MD, MSc, FRCPC
Arthur L. Allen, PharmD, CACP

We are pleased to offer 1.0 hour of enduring credit for physicians, nurses, pharmacists, and pharmacy technicians!

July Webinar Recording Now Available!

Unexplained Arterial Thrombosis: Approach to Diagnosis and Treatment

Faculty:
Jori May, MD
Arthur L. Allen, PharmD, CACP
Deborah Siegal, MD, MSc, FRCPC
Andrea Van Beek, RN, DNP, AGPCNP-BC

Boot Camp & National Conference
Join us for Virtual Boot Camp
*October 7-8, 2022*

Course will be broadcast live with 30-day access until November 7th

Only $249 per person

Learn More & Register

Our October course will be a combination of curated content from previous virtual Boot Camps and some new content including:

- Warfarin management
- Pediatrics
- Drug/Drug interactions with DOACs
- Anticoagulation Stewardship
- "A how-to" on staying abreast of the literature

17th National Conference on Anticoagulation Therapy
*April 1-3, 2023*

The program for our 2023 National Conference is now available!

We've created an agenda full of timely topics including:

- New Agents, New Indications
- Women's Health
- Clinic Administration
- Specialist Perspectives
- Thrombophilia Testing and Management
- Periprocedural Anticoagulation
- LAAO Devices
- Arterial Thrombosis
- DOAC Levels, D-dimer, & Other Testing
- LV Thrombus
- Pediatric Clotting

and More!
AC Forum PGY2 Pharmacy Residency in Thrombosis and Hemostasis Management

2023-24 Grant Funding Available! Applications Open August 22!

This recently established 1-year residency, authorized by ASHP, will increase the number of expert clinicians equipped to effectively manage patients at risk for thrombosis and bleeding, and support the creation of anticoagulation stewardship programs nationwide.

Grant Award
The award payment offers each institution $120,000 over a 2-year period. The goal of this grant is to support the institution in developing the new program, as well as provide salary assistance for two consecutive residency years.

The AC Forum will award up four 2-year grants in 2022 and 4 additional 2-year grants in 2023.

2023-24 Award Cycle
Applications Open
August 22, 2022 - September 10, 2022

Meet Our New Clinical Content Specialist

We received an overwhelming response to our Clinical Content Specialist opening. There was an amazing pool of candidates and we wish to thank everyone who reached out!

We are pleased to announce our newest part-time AC Forum team member, Craig Beavers:

Craig Beavers, PharmD, FACC, FAHA, FCCP, BCCP, BCPS-AQ
Cardiology, CACP is an assistant adjunct professor with the
University of Kentucky College of Pharmacy and has been a member of the Anticoagulation Forum's ACE Committee for over two years.

Dr. Beavers is past chair of the American College of Cardiology Cardiovascular Team Section and past co-chair of the clinical pharmacist workgroup of the American College of Cardiology and a member of the Cardiovascular Team Council and Surviving Acute Myocardial Infarction Steering Committee. He is the first pharmacist to be a Cardiovascular Professional for the Society for Cardiac Angiography and Interventions and serves on its quality committee. Dr. Beavers was also the vice chair and chair of the ACCP Cardiology PRN Student and Resident Committee and currently serves as the PRN's secretary/treasurer.

Dr. Beavers is a certified anticoagulation care provider, board-certified in pharmacotherapy with added qualifications in cardiology, and has published numerous papers, abstracts, and textbook chapters with a focus on cardiovascular pharmacotherapy. He is a fellow of the American Heart Association and an associate of the American College of Cardiology.
**AC Forum IDEA Initiative**

*Inclusion, Diversity, Equity, and Allyship*

The AC Forum IDEA Initiative works to increase awareness and promote diversity in our leadership, membership, and programming.

---

**Boot Camp Scholarship**

The AC Forum is pleased to offer scholarships to our Boot Camp program to support the ongoing education of clinicians from underrepresented racial and ethnic groups.

Scholarships will be awarded to candidates who best illustrate the desire to further their professional knowledge in the field of antithrombotic therapy.

Boot Camp will take place virtually on October 7 & 8, 2022 with extended viewing access through November 7, 2022.

**Additional Information**

- If applying for a scholarship, please do not register for the event until after the award notification date
- Notification of awards will be given prior to the registration deadline
- Incomplete applications will not be considered
- Prior scholarship winners will be considered only after all other applicants

**Apply Now!**

**Applications due by 11:59pm ET September 5, 2022**

**Arthur Allen, PharmD**

Anticoagulation Program Manager
Clinical Pharmacy Specialist
VA Salt Lake City Health Care System
How did you become interested in the field of anticoagulation?
I actually never wanted to be the “coag” guy but in my early career there was never a period where I didn’t have SOME anticoagulation responsibilities. My facility had a need that I filled, and I became Anticoagulation Program Manager in the mid-2000s. Soon after I began collaborating with Adam Rose, MD, MSc on research and quality initiatives aimed at improving TTR for warfarin patients – proving there WAS more to learn about anticoagulation. Once DOACs became mainstream, I became involved with AC Forum, and the rest – as they say – is history.

Do you have an ultimate career goal?
As I’ve said from the podium of speaking programs … I’m only doing this “clinical pharmacy” thing until my music career takes off...

Do you have any hobbies? If not, how do you like to spend your free time?
I’ve been playing music since I was about 16 – mostly in church (although I was cool enough to be in a band for a few years in my early 40s … I actually got paid from time to time so I could call myself a professional!)

What is an interesting fact about yourself?
You may not have noticed, but I’m bald. Been that way since my early 20s (sad but true). But in my history I’ve rocked a (albeit small) pony tail, a rat tail, and even used hair products.

Do you have any pets?
I’m a cat person. My yellow tabby (Gnocchi) loved me more than anyone ever has or will, but sadly passed away last year. We have two black cats: The ever nimble and skittish female Gelly (short for Gelato) and the young meathead Onyx.

If you could meet any celebrity, who would it be and what would you do?
Dave Matthews – and we’d jam for hours.

What is the most daring thing you’ve done?
After having a HORRIBLE first SCUBA diving experience on a “resort dive” (p.s., NEVER do those – there is a reason SCUBA certification takes time and effort), my son and I got back in the water and have earned my open water, advanced, and rescue diving certifications. (Not that the opportunity to dive AND see cool stuff comes up that much in Utah ...)

Anything else you’d like to share?
For the clinical pharmacists in this space: anticoagulation and thrombosis offers a unique opportunity that is – in most places – unlike other clinical jobs. If we think of places where clinical pharmacists assist in care throughout the healthcare system, at most facilities there is almost always a physician or APC with as much or more expertise as the pharmacists. AC is unique in that, at most facilities, there are not high-level thrombosis experts. Whether you realize it or not, YOU may very well be the expert at your facility. Recognizing this and working towards a model where we receive our value “from the neck up” (i.e., consulting services) will help us not only remain relevant in this space but drive towards the anticoagulation service of the future.
**Webinar**

**Anticoagulation Stewardship: Optimizing Treatment for Venous Thromboembolism Across the Continuum of Care**

Thursday | September 22, 2022 | 2:00pm ET

Featuring AC Forum President, Dr. Allison Burnett!

Allison E. Burnett, PharmD, PhC, CACP  
President, Anticoagulation Forum  
Antithrombosis Stewardship Pharmacist  
University of New Mexico Hospital  
Associate Adjunct Clinical Professor

Caroline Cromwell, MD  
Assistant Professor of Medicine  
Icahn School of Medicine at Mount Sinai  
Medical Director, Thrombosis Services Program  
Mount Sinai Health System
In this webinar, Dr. Burnett will define anticoagulation stewardship and describe practice-level initiatives and national-level momentum behind these types of programs. She will also discuss the role of pharmacists within the multidisciplinary team to promote anticoagulation stewardship for VTE patients throughout the continuum of care. Finally, she will summarize relevant clinical resources to aid clinicians in optimizing the care of VTE patients.

THSNA 2022
Thrombosis & Hemostasis Summit of North America
August 25th - 27th (New Dates)
Pre-Summit Workshops: August 24th
Sheraton Grand Chicago

The THSNA Summit is a collaboration of the 13 leading non-profit organizations in the fields of Thrombosis and Hemostasis. The Summit provides a focused forum for over 1,500 attendees with an interest in bleeding and clotting disorders to network, learn, and share across disciplines and disease states. The educational programming is organized in a series of plenary presentations, educational track session, oral abstract presentations and digital poster sessions.

THSNA meeting registrants will have the option of remote attendance via live streams of all talk sessions, followed by on-demand access to recordings of all sessions for both live and virtual registrants.
Join your colleagues at THSNA 2022. As a reminder, when registering select that you are a member of the Anticoagulation Forum!

The Anticoagulation Forum is dedicated to supporting our partners.
