NEW ACE Resource * AC Forum 2019: Abstracts & Scholarship Updates *
February AC Forum Webinar, NBCA Webinar

Centers of Excellence Resource Center: Literature Updates

The AC Forum Centers of Excellence (ACE) resource center has a brand new feature to help you stay current on meaningful literature.

Every two weeks we will provide a thorough, categorized literature update with hyperlinks to journals. When you access the resource you will download a spreadsheet with article titles archived to July, 2018 and up to one year.

[Literature Update](#)

Many thanks to Bishoy Ragheb, PharmD, Anticoagulation Clinical Pharmacy Specialist at the VA in Murfreesboro, TN for creating and maintaining this amazing resource for our members! Dr. Ragheb has served as a committee member on ACE since 2015.

ASH 2018 Guidelines for Management of VTE: Heparin-Induced Thrombocytopenia and Optimal Management of Anticoagulation Therapy

Wednesday, February 20, 2019, 12:00 PM ET

Guest Speakers:

Adam Cuker, MD, MS and Daniel Witt, PharmD, FCCP, BCPS, CACP

AC Forum Moderators:

Tracy Minichiello, MD; Michael Streiff, MD; Diane Wirth, ANP, CACP

In partnership with the McMaster University GRADE Centre, ASH brought together more than 100 experts including hematologists, other clinicians, guideline development specialists, and patient representatives to develop a [comprehensive set of guidelines](#) on the treatment of VTE to help the medical community better manage this serious condition.

We are fortunate to have AC Forum board member Dr. Adam Cuker, Chair, ASH VTE Guidelines Coordination Panel and HIT panel joining us to discuss the guidance updates. We will discuss two of the ten guidelines updated:

- HIT ([heparin-induced thrombocytopenia](#)), with lead author Adam Cuker
- [Optimal Management of Anticoagulation Therapy](#), with lead author Daniel Witt

Hot Topics and Fresh Insights in Ft Lauderdale

Join us **April 11-13, 2019 at The Diplomat Beach Resort in Ft. Lauderdale** for the most comprehensive anticoagulation conference. Hear industry leaders discuss current topics and provide practice changing, evidence-based information that can be brought back to the clinic for immediate implementation.

Session Highlights

- Anticoagulants for Secondary Prevention of CAD/PAD
John Eikelboom, *McMaster University*
- State of Anticoagulation Management Services
Geoff Barnes, *University of Michigan*
- Managing VTE in Cancer Patients
David Garcia, *University of Washington*
- Transitions of Care
Allison Burnett, *University of New Mexico Health Sciences Center*
- DOAC Reversal: Is it Necessary?
Mark Crowther, *McMaster University*

Close out the conference by joining our past presidents as they discuss real world dilemmas and how to manage them.

Read more about our [program](#) and [faculty](#) and reserve your spot today!

NBCA Webinar: Diagnosis and Management of VTE in Patients with Inherited Thrombophilias: Clinical Decision-making in the Genetic World

Friday, February 15, 2019, 3:00 PM ET

Guest Speakers:

Michael Streiff, MD and Michael Tarantino, MD

In this webinar for healthcare professionals, Drs. Michael Streiff and Michael Tarantino review current issues in the diagnosis and management of venous thromboembolism (VTE) patients with identifiable genetic predisposition for abnormal clotting. Dr. Streiff will provide an overview of thrombophilias and their impact on VTE risk, therapeutic choices and long term management, including questions about genetic testing. Dr. Tarantino will focus on hereditary antithrombin (AT) deficiency diagnosis and treatment.

This webinar examines thrombophilia and its many forms, discusses the risks and potential complications, summarizes the current perspectives about testing and diagnosis, and provides an overview of potential treatment options and lifestyle adjustments that may be necessary.

Contact info@stoptheclot.org with questions.
