### Free AC Forum CE: Transitions of Care

Jointly provided by Postgraduate Institute for Medicine and AC Forum  
Supported by an educational grant from the Bristol-Myers Squibb and Pfizer Alliance

Our April 2018 Boot Camp featured a Transitions of Care Summit. This free enduring program is available in 3 segments and carries a total of 3.25 contact hours of credit.

[Learn more](#) about program specifics, faculty, and register to complete the CE modules.

#### [Module 1: Fundamentals of Anticoagulant Therapy: Transitions of Care](#)

This program outlines why anticoagulation patients are at increased risk when moving from one care setting to another and approaches that may promote better transitions of care.

#### [Module 2: Care Transitions for VTE Patients: Cases and Panel Discussion](#)

This program outlines the complexities in transitions of care, best practices for safe discharge of patients on anticoagulants.

#### [Module 3: Innovative TOC Model Programs](#)

This program outlines fundamentals of patient education for successful treatment and shared patient decision making.

Agency for Healthcare Research and Quality  
Advancing Excellence in Health Care

### Free Patient-Education Resources from AHRQ

The Agency for Healthcare Research and Quality offers a free booklet and a video about blood thinner medicines. Staying Active and Healthy with Blood Thinners, a 10-minute video, features easy-to-understand explanations of how blood thinners work and why it's important to take them correctly. Blood Thinner Pills: Your Guide to Using Them Safely, a 24-page booklet, explains how these pills can help prevent dangerous blood clots from forming and what to expect when taking these medicines.

### Grant Opportunity: 2019 HTRS Mentored Research Award Program

The **Hemostasis and Thrombosis Research Society's Mentored Research Award Program (HTRS MRA)** provides financial support for qualified fellows or junior attending/junior faculty pursuing clinical, translational, or basic science research in hemostasis and/or thrombosis under the guidance of an experienced mentor.

Research projects funded by the 2019 HTRS MRA Program will run for two years, from July 2019 through June 2021.

Please encourage fellows and junior attending/junior faculty to apply for this award and forward this to individuals who may be interested.

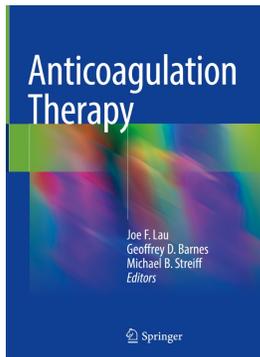

The [Request for Proposals](#) outlines the eligibility requirements and submission guidelines for the 2019 HTRS MRA Program. The [Application Form](#) is required as part of the submission.

Pre-proposals for the 2019 HTRS MRA Program are due **Monday, July 23, 2018 by 6:00pm ET**.

Additional information about the HTRS MRA Program is available on our website at [www.htrs.org](http://www.htrs.org) under the heading "[Grants & Awards](#)". Questions about the program can be directed to Laura in the HTRS Office at [htrs@bcw.edu](mailto:htrs@bcw.edu) or by calling (414) 937-6562.

# Anticoagulation Therapy

Editors: Joe Lau, MD; Geoffrey Barnes, MD; Michael Streiff, MD

This book presents the latest evidence and guidelines supporting the use of anticoagulant therapy for various clinical scenarios. Clinical vignettes, algorithms, clinical pearls, and self-assessment questions are integrated throughout the book.

Featuring contributions from authorities in the field, Anticoagulation Therapy is an essential resource for cardiologists, vascular medicine specialists, hematologists, internists, and all other healthcare professionals who prescribe anticoagulants.
