ANTICOAGULATION

Registration now open!
Anticoagulation Boot Camp
Chicago, October 12-13

AC Forum's 7th regional Boot Camp will be held this fall in Chicago, IL. This compact 2-day meeting provides a comprehensive curriculum that covers the essential aspects of anticoagulation, disease state, and drug management. An engaging discussion around quality improvement, new agents and special situations will benefit all practitioners, and daily "chalk talks" will allow for attendee participation to shape the topics. The boot camp model will have a limited enrollment in order to provide ample time for Q&A and personal interaction with our expert faculty.

To register, visit acforumbootcamp.org.

**June Webinar: Rivaroxaban or Fondaparinux for
Patients with Superficial-Vein Thrombosis**

Tuesday, June 20, 12:00 Eastern

Superficial-vein thrombosis can lead to deep vein thrombosis and pulmonary embolism. In our June webinar, we will discuss the SURPRISE trial which compared efficacy outcomes in patients using

rivaroxaban and fondaparinux. Our guest will be the lead investigator, Dr. Jan Beyer-Westendorf, MD, of the University Hospital "Carl Gustav Carus" in Dresden, Germany.

To read an abstract of the study in the Lancet Haematology, click [here](#).

American College of Physicians Offers New Patient-Centered Resources for VTE

The Center for Patient Partnership in Healthcare at the American College of Physicians has new resources for patients to learn about VTE. The resources can be downloaded or ordered free of charge. They include a web-based tool for assessing personal blood clot risks, a self-management guidebook on risk factors, symptoms, prevention and treatment; and much more. To view the resources, visit www.acponline.org/vtebloodclots.
