UPCOMING WEBINARS

Unexplained Arterial Thrombosis: Approach to Diagnosis and Treatment
Wednesday | July 20, 2022 | 12:00pm ET

Joined by the lead author of this important publication, we will discuss a structured approach to the diagnosis of unexplained arterial thrombosis, highlighting the evolution of management over the past five years. Topics will include dual-pathway inhibition, antithrombotic therapy selection in embolic stroke of undetermined source and left ventricular thrombus, the role of patent foramen ovale closure, and the thrombotic potential of COVID-19 infection and vaccination.

Presenters & Guest Faculty:
Jori May, MD
Deborah Siegal, MD, MSc, FRCPC
Andrea Van Beek, RN, DNP, AGPCNP-BC

Moderator:
Arthur L. Allen, PharmD, CACP

We are pleased to provide 1.0 hours enduring accreditation for physicians, nurses, pharmacists, and pharmacy technicians!

AC Forum IDEA Initiative
Inclusion, Diversity, Equity, and Allyship

The AC Forum IDEA Initiative works to increase awareness and promote diversity in our leadership, membership, and programming.

We are pleased to share with you information about two important celebrations this month - Juneteenth and Pride.

Celebrating Juneteenth!

Juneteenth (short for June Nineteenth), marks the day in 1865 when federal troops arrived in Galveston, TX to liberate the state from the remnants of the Confederate Army and free the slaves --nearly two and a half years after the Emancipation Proclamation had been signed.

Juneteenth, also called "Juneteenth Independence Day," "Freedom Day" or "Emancipation Day" has has been celebrated by the black community for over 150 years. Several states, including Texas, acknowledged Juneteenth as a holiday, however, it was not until the summer of 2021 that it became federally recognized.

June is Pride Month!

In the 1960's, engaging in same-sex relations was illegal in New York City. LGBT individuals found refuge in gay clubs and bars where they could express themselves openly and socialize without worry.

In 1969, police stormed the Stonewall Inn bar in Greenwich Village to arrest the patrons. The crowd that gathered to witness the event grew restless, fed-up with constant police harassment and social discrimination. Soon, a riot erupted, leading to protests that lasted five days.

Building on the momentum and spirit of resistance, a march was held in New York City the following year, themed "Gay Pride." Pride Month was first recognized by President Bill Clinton in
1999, and features a variety of activities throughout the country celebrating the LGBT community and highlighting their ongoing struggles.

From Our Leadership

Board Member Spotlight

Bishoy Ragheb, PharmD, BCACP, CACP

Dr. Bishoy Ragheb received his Doctor of Pharmacy degree from Florida A&M University in 2008. He completed his pharmacy practice residency with a focus on anticoagulation and primary care at the Tallahassee Outpatient Veterans Affairs Clinic and continued to serve veterans there as a clinical pharmacy specialist until 2014.

Dr. Ragheb accepted a position in 2014 as the anticoagulation program manager at the Tennessee Valley Health Systems (TVHS) Veterans Affairs. He initiated and oversaw service operational initiatives including the development of the local anticoagulation stewardship program which led to the improvement of anticoagulation care across Tennessee Valley, resulting in more than a 10% absolute increase in time within therapeutic range as well as the oversight of more than 4500 patients on direct oral anticoagulants. These efforts culminated in TVHS receiving the distinction as an anticoagulation “Center of Excellence”. His site was one of the first VAs to adopt the use of the DOAC population-based management tool and is a pilot site for several improvement initiatives such as the VAs national bleed/clot report population-based management tool.

Dr. Ragheb serves as a resource in assisting other VA facilities with developing their own outpatient stewardship programs. He also serves as the facility’s Ambulatory Care Post-Graduate Year Two Residency Program Director and has led residency driven anticoagulation research.

Dr. Ragheb has the privilege of serving on the Anticoagulation Forum’s Centers of Excellence committee and has contributed several resources aimed at improving anticoagulation care.

Supporting Our Partners

THSNA 2022
Thrombosis & Hemostasis
Summit of North America
August 25th – 27th (New Dates)
Pre–Summit Workshops: August 24th
Sheraton Grand Chicago

The THSNA Summit is a collaboration of the 13 leading non-profit organizations in the fields of Thrombosis and Hemostasis. The Summit
provides a focused forum for over 1,500 attendees with an interest in bleeding and clotting disorders to network, learn, and share across disciplines and disease states. The educational programming is organized in a series of plenary presentations, educational track session, oral abstract presentations and digital poster sessions.

THSNA meeting registrants will have the option of remote attendance via live streams of all talk sessions, followed by on-demand access to recordings of all sessions for both live and virtual attendees.

Regular Registration Deadline: July 1, 2022

Join your colleagues at THSNA 2022. As a reminder, when registering select that you are a member of the Anticoagulation Forum!
